Register today to "Come Play on the Freeway!"

**come
play
freeway**
the finale!

Runners, walkers, cyclists and classic car buffs are invited to register for **"Come Play on the Freeway: The Finale!"** on Saturday, June 23 in Rialto and San Bernardino.

This pre-grand opening event will offer a sneak peek at Route 210, which is set to open later this year. An official opening date for Route 210 hasn't been set yet, but stay tuned.

The event website, www.playonthe210.org, is up and running, so register now for 5K and 10K runs and walks, bicycle rides and the classic car show. Volunteers also are needed, so check out the volunteer form as well. Registration forms also are available at Don's Bikes, 384 S. Riverside Ave., Rialto, or by calling 1-866-HELP-210.

The 5K events are named in honor of the late Marilyn Cardosi, long-time Public Information Officer for the Rialto Unified School District, and a valuable resource in disseminating information about the freeway project to staff, parents and students. She lost a lengthy battle with cancer in November 2006. The 10K events are named in memory of Gary Moon, former Director of Freeway Construction for San Bernardino Associated Governments. He also succumbed to cancer, in October 2005.

Some activities require an entry fee. Proceeds will benefit the American Cancer Society and the Boys & Girls Clubs of Rialto and San Bernardino.

Storm drain work is continuing on Highland Avenue

Construction crews are continuing work on the State Street storm drain in San Bernardino, which has required the partial closure of Highland Avenue between State Street and California Street.

Crews have begun placing six-foot diameter pipe beneath Highland Avenue east of State Street and expect to continue this phase of work for about three weeks. Prior to this, crews had been digging the trench in which the pipe is being placed.

Once the pipe is installed beneath the roadbed on Highland, crews will turn the corner at California Street and begin the trenching and pipe placement along California north of Highland Avenue. The entire storm drain project is scheduled to be complete by late May.

Drivers headed east on Highland may access businesses between State and California, but no through-traffic is allowed; 20th Street should be used as a detour. Westbound access on Highland also is prohibited, and drivers may be cited. Drivers are urged to patronize these Highland Avenue businesses.

SANBAG tours freeway paving

SANBAG staff, including Jennifer Franco and Marla Modell, at right, and other visitors got a close-up look at Route 210 paving during an April 6.

Crews have been placing the top layer of concrete on lanes between Pepper Avenue and State Street. Kevin Coffman of Coffman Specialties explained that crews have been paving about half a mile daily.

To add or remove your name from the Under Construction email list, please send your request to cdonahue@sanbag.ca.gov or call 1-866-HELP-210. This bulletin is a feature of the Route 210 Public Information and Safety Program. **Safety, It's No Accident!**
